## “Sereen Hair” Overview

### Client Information

Business Name: Sereen Hair

Primary Contact: Nikeya S. Burnett

Business Type: Specialized wig services for cancer patients

### Project Summary

Sereen Hair requires a comprehensive digital marketing strategy to increase brand awareness, generate more consultations, and ultimately drive wig sales. The business needs to establish itself as the trusted authority in providing specialized wig services for cancer patients. Additionally, there is a need to build strategic partnerships with oncology centers, dermatology offices, and cosmetology schools.

## Objectives

- Increase consultation bookings to 50 per month

- Convert approximately 40% of consultations to wig sales
- Generate at least \$25,000 in monthly revenue
- Establish one new strategic partnership per month with medical facilities
- Build relationships with cosmetology schools to become a guest speaker
- Effectively promote the virtual gift card option for friends and family of cancer patients

## Understanding of Sereen Hair's Needs

Sereen Hair faces several challenges that our digital marketing solutions can address:

1. **Building Brand Authority:** You need to establish yourself as the expert in specialized wig services for cancer patients, creating trust with potential clients who are in a vulnerable position.
2. **Increasing Consultation Bookings:** Your business model relies on converting consultations to sales, with an impressive 80% conversion rate. Increasing the number of consultations is key to growing revenue.
3. **Expanding Strategic Partnerships:** You aim to build relationships with 10 oncology centers and other medical facilities to create referral channels.
4. **Limited Marketing Bandwidth:** With your focus on providing excellent service to clients, you have limited time (approximately 1 hour per week) to dedicate to marketing efforts.
5. **Momentum Building:** You need to build momentum leading up to Breast Cancer Awareness Month in October, rather than starting marketing efforts from scratch at that time.
6. **Budget Considerations:** As a growing business, you need marketing solutions that provide strong ROI while being mindful of investment levels.
